Posted by: John Doe

Job Title: Cyber Security Analyst

Department: IT

Reports To: IT Security Management

Location: Remote

Salary Range: \$75,000- \$100,000

Date Posted: September 7th, 2024

JOB OVERVIEW

CyberTech Inc. is a 50-employee company providing scalable cloud infrastructure and SaaS solutions to clients in healthcare, finance, and e-commerce. Founded in 2018, we pride ourselves on agility, customer-centric innovation, and a lean operational model.

While CyberTech has grown rapidly, our cybersecurity practices remain reactive and fragmented. Recent client inquiries about compliance and a rise in industry breaches have highlighted the need for a structured approach. Your expertise will help us build resilience, maintain client trust, and support future growth.

ROLES & RESPONSIBILITIES

- Assess our current cybersecurity posture and identify risks.
- Propose a framework (e.g., NIST CSF 2.0) to address gaps and align with business goals.
- Lead implementation of the chosen framework, ensuring buy-in from stakeholders.
- Foster a culture of security awareness across the organization.

QUALIFICATIONS

- Bachelor's or Master's degree in Cybersecurity, Information Technology, Computer Science, or a related field.
- Understanding of cloud security frameworks (AWS, Azure, GCP) and their alignment with NIST CSF.
- CompTIA Security+

PREFERRED SKILLS

- Deep understanding of NIST CSF 2.0, NIST 800-53, NIST 800-171, and risk management principles.
- Strong communication skills to educate stakeholders and ensure company-wide compliance.
